POWER SUPPLY

The device is powered by four AA batteries.

How to Replace the Batteries

- Ensure the power is off. Press *On/Off* to turn the device off.
- Remove the used batteries and replace them with new ones. Make sure to place the batteries according to the polarity marks (+ -). Do not mix old and new batteries.

Power On / Power Off

- Use the *On/Off* button to turn the device On or Off.

In the rare event that the data on the screen is corrupted or a program is not responding properly, you will need to perform a reset. The *Reset* button is located on the back of the device. It can be accessed with any thin object like a paper clip. Never use a needle or a sharp pin for this purpose since it can damage the device.

✓ After the system has been reset, press and hold the *On/Off* button for 3 seconds to turn the device on. It may take about 1 minute for the device to start up.

INSTALLING SD CARD

- Unfasten the SD slot cover.
- If the card is not installed, slide it into the slot – the contacts of the card face up, label face down. Push the card gently until it clicks into place.
- To eject the card, just push it in slightly.

MAIN MENU

To display the *Main Menu*, turn the device on and/or press and hold the ⟲ key for 3 seconds. The *Main Menu* consists of the following sections: *Books*, *Pictures*, and *Settings*.

READING BOOKS

The following book formats are supported: eReader DRM, FictionBook (.fb2), Plain Text (.txt), Mobipocket (.mobi), PRC, EPUB, RTF, PDF. For best performance, it is recommended that you use TXT (text) files.
